Portable Terminal Crimping Machine (Electric)

RSE-TC-5120

Feature

- Widely applicable. 7 sets of precision crimping applicator are available, which can work for various terminal types (OT, SC, pre-insulated terminals, non-insulated terminals, etc.)

- Constant speed motor driven so that it owns advantages of high efficiency not only in crimping force but crimping speed.
- The electric machine outshines the manual wire crimper with its labor-saving and quality -guaranteed traits.
- No noise compared with pneumatic wire crimper, which is physically friendly to the operator.
- Portable and suitable for most working environments if the operation space is limited, or the wires to be processed are scattered everywhere in the factory.

Specification

Model	RSE-TC-5120
