

Vertical Bracket For Electric Screwdriver DS-168

Feature

- ▶ Supports forward/backward, left/right and vertical movement, with 360° rotation to adapt to various working angles and positions.
- ▶ Maintains 90° vertical fastening, lowers defects and ensures consistent operation. Aluminum alloy body; equipped with 30/40/50mm chucks for multiple electric screwdrivers.
- ▶ Stainless steel tension spring, good elasticity and long service stability.
- ▶ Fastened with self-tapping screws for easy installation. The stable structure effectively reduces shaking during operation.

Specification

Model	RSM-ISC-300
Material	Aluminum Alloy, Hard Chrome Steel
Usage	For electric screwdrivers, pneumatic screwdrivers and other tools used in electronics factories.
Working Range	360° Rotation, Radius: 500mm
Dimension	Column H 760mm; Total H (with arm) 860mm
Customizable	Length & arm length on request

RSM-SFM-01

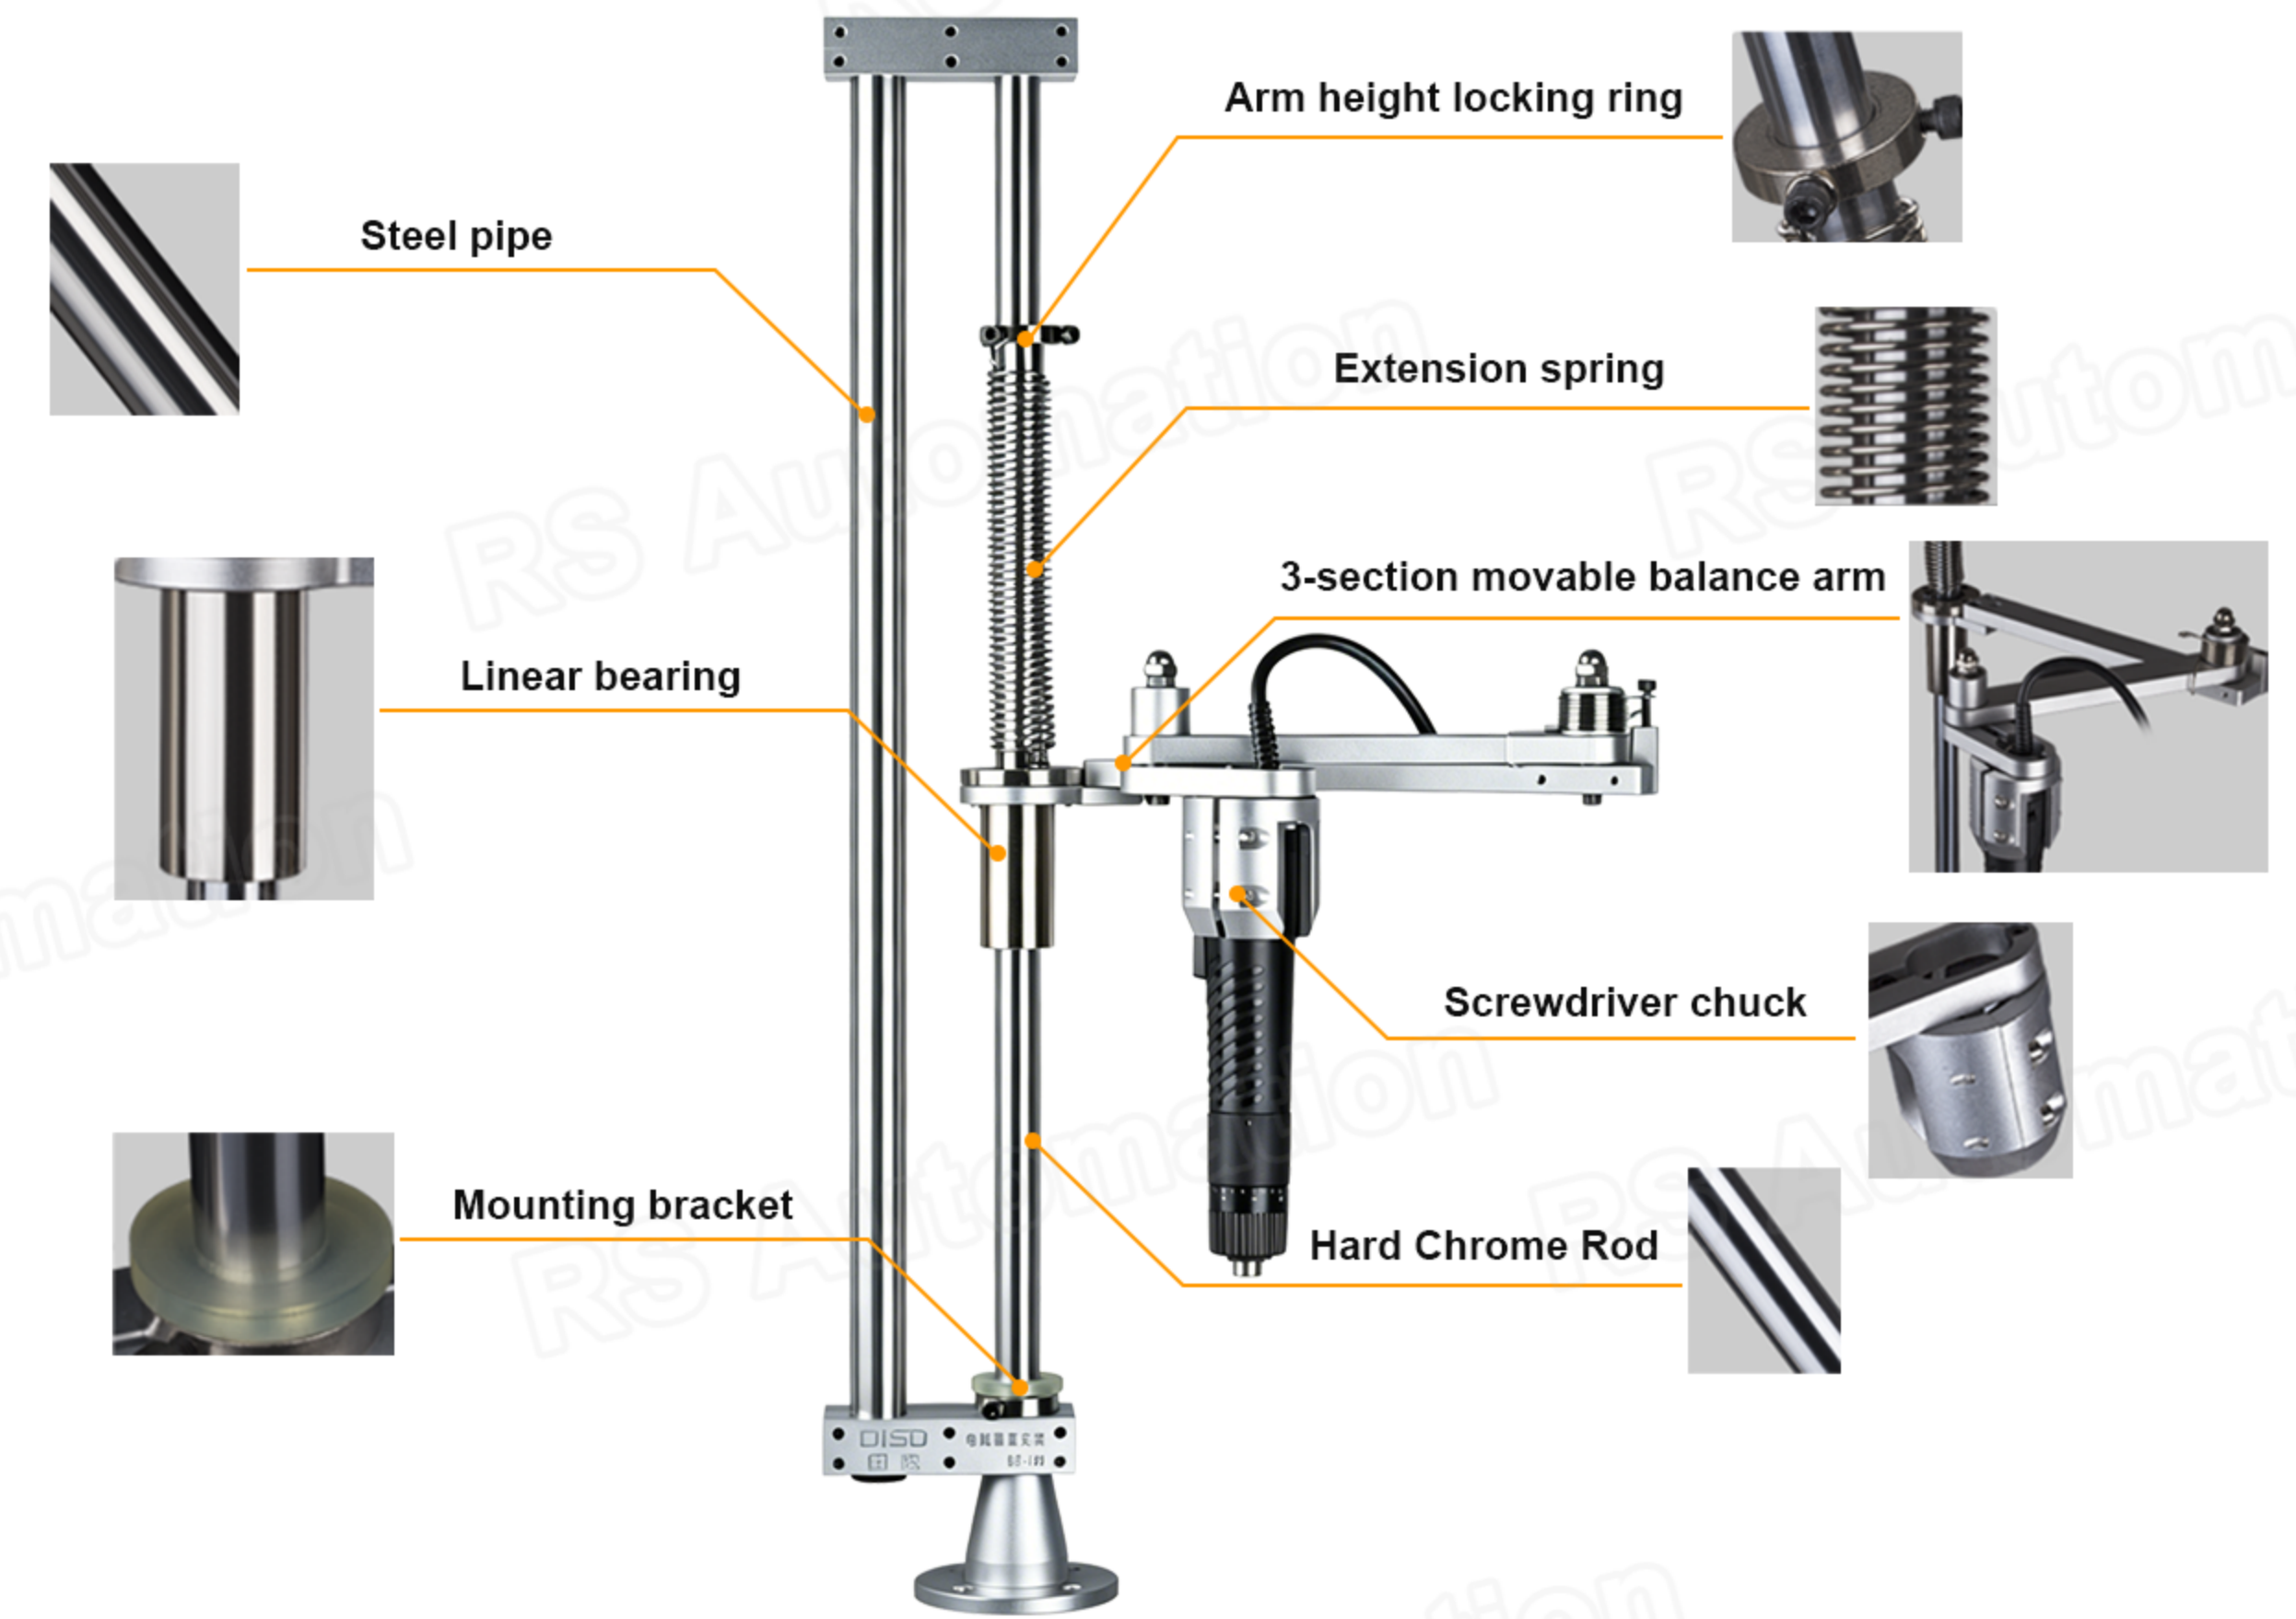

Vertical bracket for electric screwdriver, matched with screw machines.
