

30mm/40mm Strokes Terminal Crimping Machine

RSA-TC-20J/20E

Feature

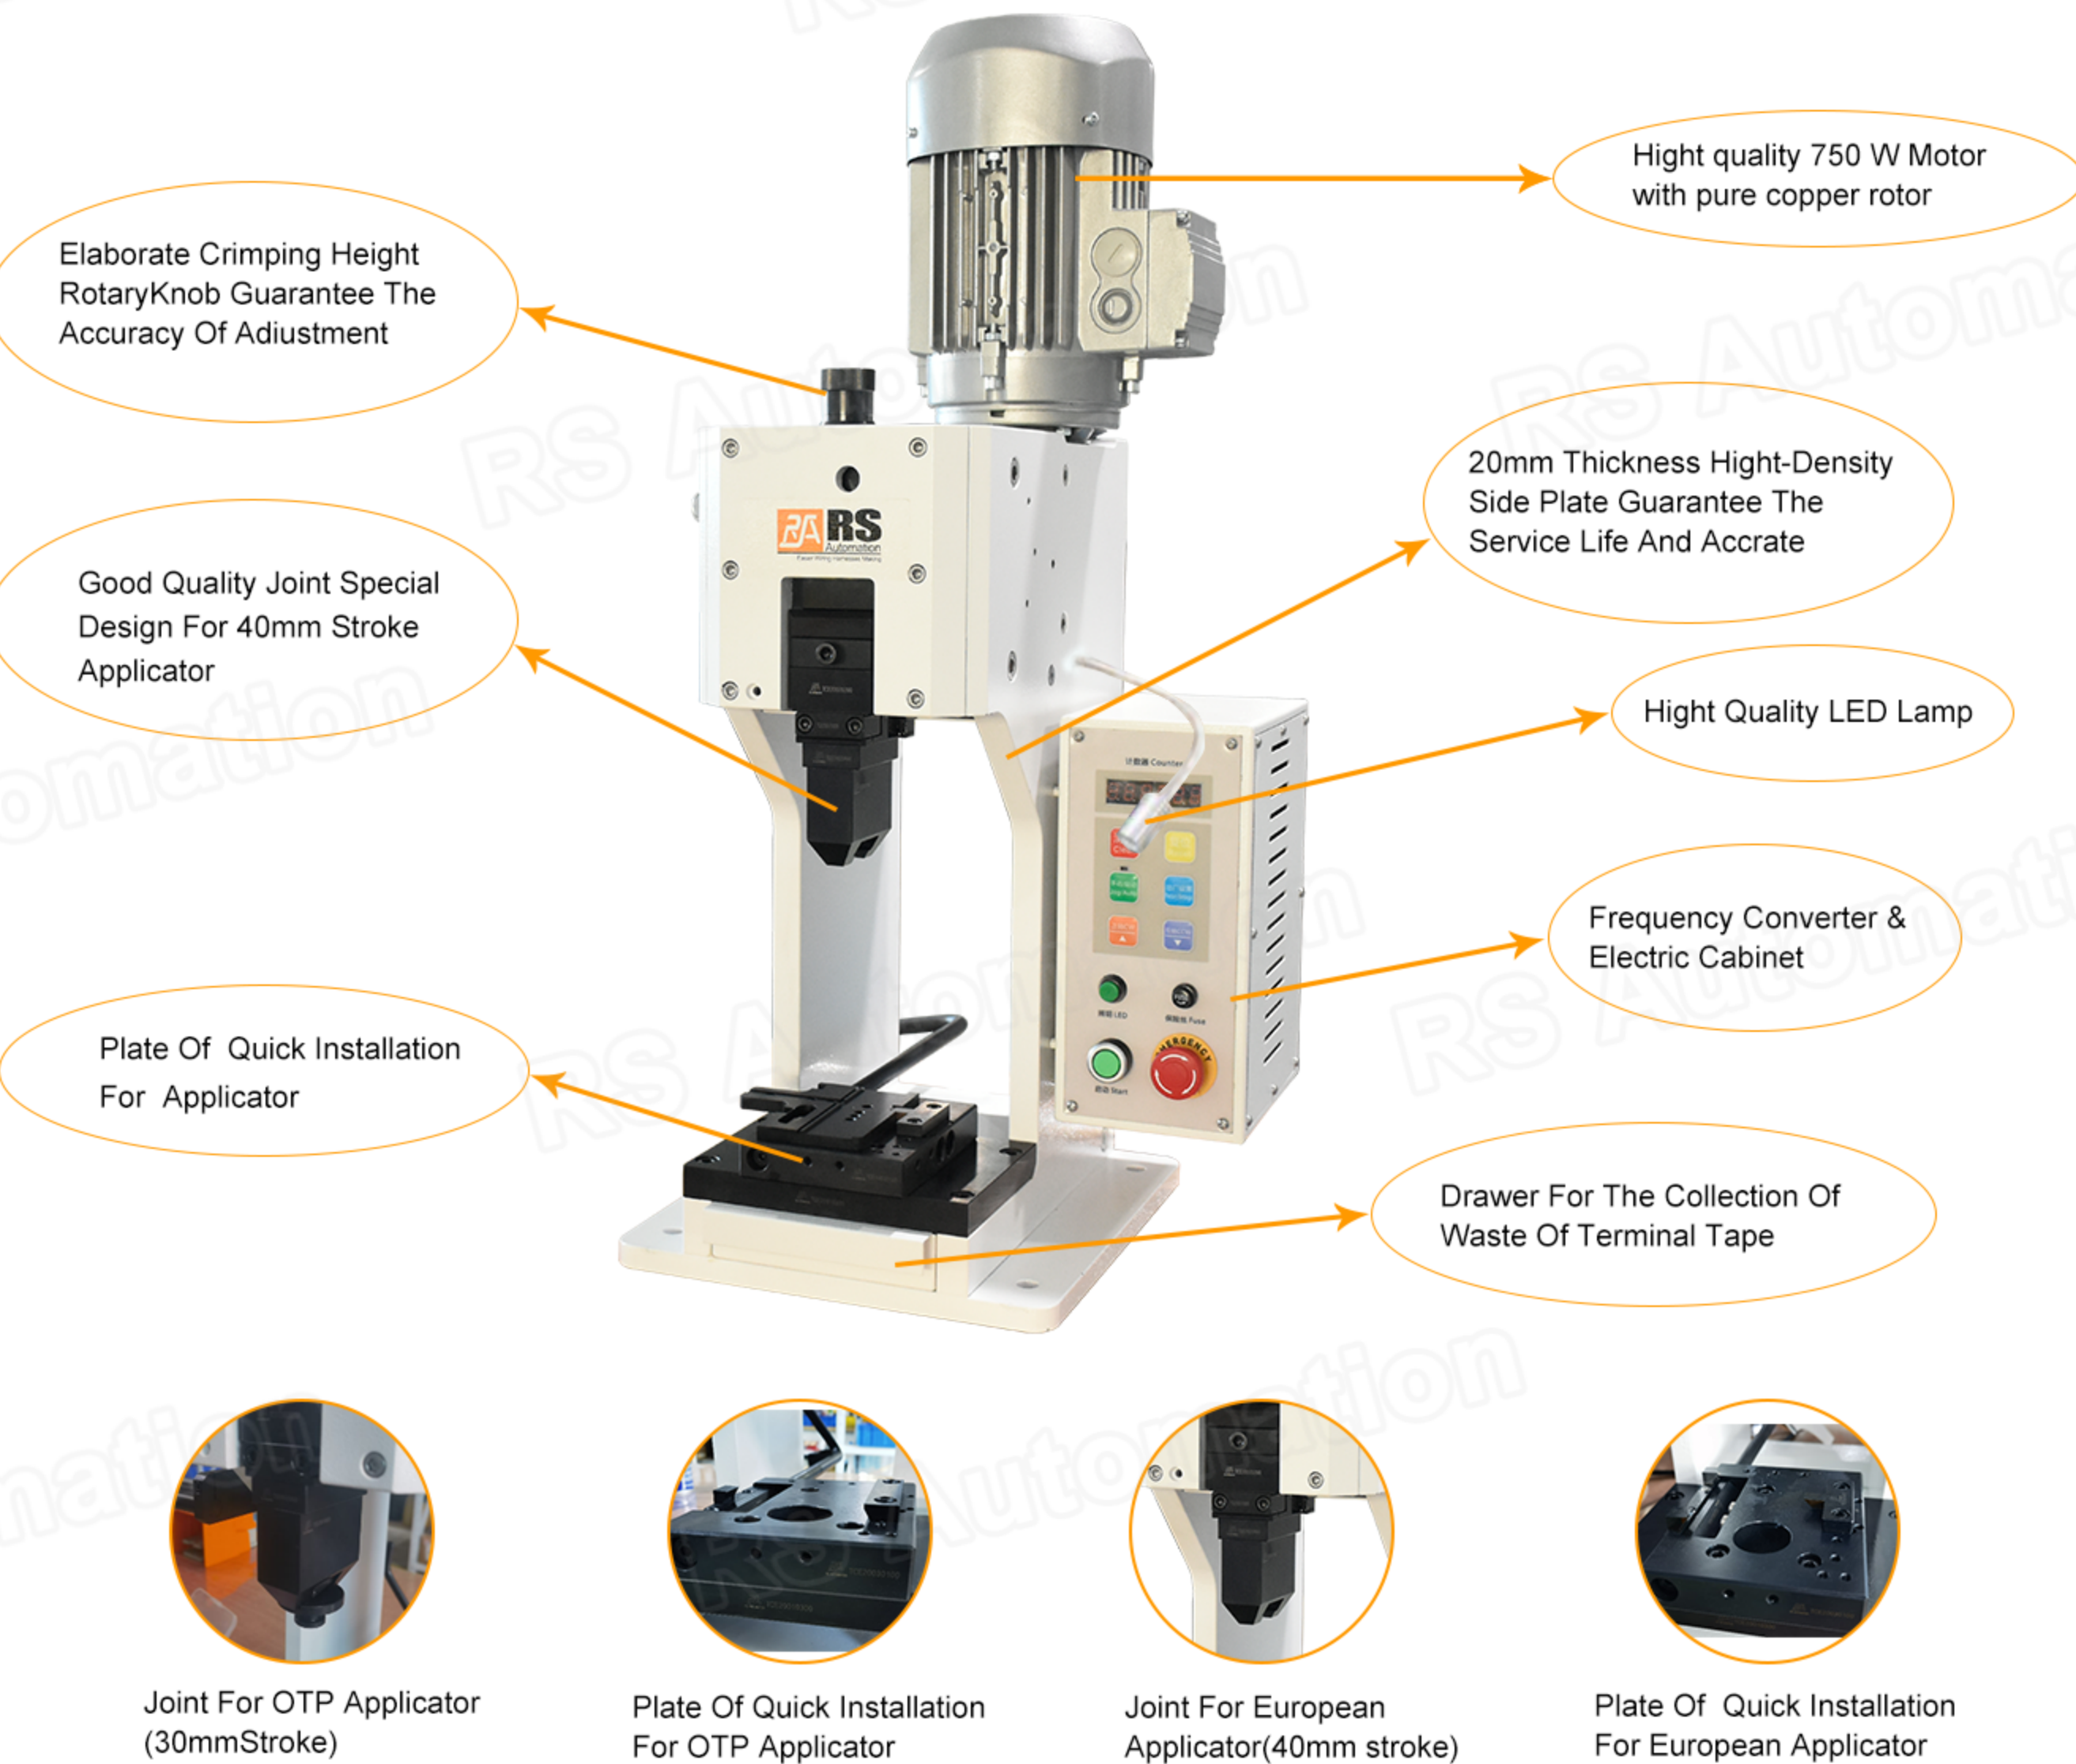

- ▶ Adopt frequency conversion controlling system, very low noise and power saving.
- ▶ Special casting cavity design and 20mm thickness high-density side plate to guarantee the service life and accuracy
- ▶ Adopt high rusty-proof treatment to the mecahincal parts to ensure the longer time less maintainence.
- ▶ Can be equipped CFA/CFM to provide the good quality production process.

Specification

Model	RSA-TC-20J	RSA-TC-20E
Crimping force	2Ton	2Ton
S.P.M	MAX175 S.P.M	MAX175 S.P.M
Stroke	30mm	40mm
Accuracy	0.02mm	0.02mm
Motor	0.75KW	0.75KW
Power	AC 220V 50/60 HZ	AC 220V 50/60 HZ
Shutting Hight	119.7mm	135.8mm
Dimension	L330mmxW320mmxH715mm	L330mmxW320mmxH765mm
Weight	96kg	95kg
Packaging Size	L466mmxW566xH940mm	L466mmxW566xH990mm

Details of machine (40mm stroke)

Special Casting Cavity

Adopt casting cavity , infiltrated with lubrication oil , providing better wear-proof and durable life.
