

High Speed Wire Stripping Machine

RSM-WCS-30G

Feature

- ▶ Widely applicable. Suitable for processing of wires of AWG 30-10 (customizable for short and thin wire) .
- ▶ Highly flexible. It can be applied to different wires only by changing the guiding tube.
- ▶ Great precision. All the mechanisms are equipped with self-compensation function, which greatly reduces the error.
- ▶ User-friendly. All parameters can be set on HMI, and Chinese/English interface, to ensure easy setup for each function.
- ▶ Up to 99 groups of processing parameters can be stored, which greatly saves the adjustment time and materials waste.
- ▶ Window stripping mechanism is optional, which is capable of up to 32 window stripping on one wire.

Specification

Model	RSM-WCS-30G
Function	Wire cutting and stripping (single-end/both-ends)
Cutting Length	35-99999 mm
Cutting Accuracy	<1‰
Stripping Length	1-30mm
Wire O.D.	AWG#30—10 (0.05-6mm²)
Voltage	AC 220V (single phase)
Weight	35 KG
Dimension	W430mmxD350mmxH368 mm

Optional

Wire Feeder

For cable coil I.D.	185 mm
For cable coil Height	110mm
For cable coil O.D.	380mm
For spool cable I.D.	24mm
For spool cable Height	180mm
For spool cable O.D.	400mm

Wire Collector

Length 2m/4m/6m/8m/10m/12m (optional)
