

Semi-automatic Wire Seal Inserting Machine

RSC-GSI-200

Feature

- ▶ The seal insertion depth (20-260mm) is larger than the traditional model. Customizable according to the requirements.
- ▶ Suitable for wire seal insertion into FAKRA Multi-core Cable, Communication Video Ethernet, Large Square Battery Cable and Coaxial Cable Outer Jacket.
- ▶ Automatic seal loading and high-accuracy seal insertion to greatly increase inserting speed and productivity, which addresses the challenges of processing irregular rubber or silicone stoppers.
- ▶ Quick changeover. For wire seal of different sizes, compatible with different seal applicator.

Specification

Model	RSC-GSI-200
Wire Seal Size	Φ3-13mm (Customizable beyond 14mm)
Wire O.D.	3.0-16mm (Customizable beyond 16mm)
Wire Length	20mm (Min.)
Seal Insertion Depth	20-260mm
Productivity	2000-2500pcs/hour (Max. 3000pcs/hour)
Air Source	0.5-0.6MPa
Power	24VDC-50W
Voltage	AC220 50HZ (single phase)
Weight	About 42kg
Dimension	L600mm*W200mm*H630mm
