

Automatic Stretch Film Bundling Machine

RSE-FWM-145

Scan to watch video

Feature

- ▶ Dual Operating Modes: Switch between automatic sensor activation and push-button operation.
- ▶ Cost-Effective Bundling: Uses PE stretch film to keep consumable costs low.
- ▶ Secure Bundling: Provides a tight wrap, including around items with little or no elasticity.
- ▶ Versatile Applications: Suitable for vegetables, hardware, wire harnesses and other bundled products.
- ▶ Easy Operation: User-friendly design for straightforward operation.
- ▶ Flexible Bundling Range: Accommodates different product sizes, including items sensitive to compression.

Specification

Model	RSE-FWM-145
Drive Type	Electric
Bundling Speed	30 cycles/min
Power Supply	AC 220 V, 50/60 Hz
Operating Modes	Automatic sensor activation / Push-button operation
Rated Power	80 W
Bundling Diameter	30–145 mm
Bundling Material	PE stretch film
Film Width	30 mm
Banding Frame Dimensions	230 × 145 mm
Machine Dimensions	505 × 405 × 205 mm
Net Weight	17.5 kg
Typical Applications	Hardware, vegetables, wooden products, vermicelli, rice noodles and wire harnesses
