

## IDC Crimping Machine

### RSE-PCM-1000

### Feature

- ▶ Designed for 40P–64P IDC ribbon cable connector crimping, to replace manual hand crimping tools.
- ▶ Low air consumption, low failure rate, and lower maintenance cost.
- ▶ Used with a bakelite base, to ensure wear resistance and high precision.
- ▶ User-friendly. Auto crimp after ribbon insertion, easy to operate.
- ▶ 300–600 cycles per hour, varies by product.

### Specification

Model	RSE-PCM-1000
Function	Crimping of IDC and ribbon cables
Number of Pins	40-64Pin
Productivity	300-600pcs/h (depends on the product type)
Voltage	AC220V (single phase)
Air Source	6-8kg/0.6-0.8Mpa
Weight	14kg
Dimension	L250mm×W200mm×H330mm
