

Pneumatic Terminal Crimping Machine

RSE-PTC-04/06

Feature

- ▶ Quick changeover with unique fixing plate design. No need to change the crimping applicator.
- ▶ Pneumatic control. The air source can be adjusted according to terminals of different sizes.
- ▶ Energy-saving cylinder design, saving 50% of air source than similar machines for medium and large terminals crimping.
- ▶ Portable and suitable for most working environments if the operation space is limited.
- ▶ The base is designed to fix machine on the operating table, which makes operation easier.
- ▶ The applicator is made of alloy steel by heat treatment process, which is robust and durable.

Specification

Model	RSE-PTC-04	RSE-PTC-06
Cable Range	0.08-10mm ²	0.25-6mm ²
Crimping Force	1.3T	1.3T
Air Source	0.3-0.8MPa	0.3-0.8MPa
Weight	5.52kg	5.8kg
Dimension	L251mm × W100mm × H150mm	L251mm × W100mm × H150mm

Options

Four-sided Crimp: RSE-PTC-04

Hexagonal Crimp: RSE-PTC-06

Attachment

Three fixing plates are included.
