

Semi-automatic Wire Stripping & Soldering Machine

RSE-SSM-300S

Feature

- ▶ Suitable for soldering of USB (short body), AM, USB AF, MINI5PIN, MICRO and other connectors.
- ▶ Fast temperature return speed by adopting high-power soldering station, which ensure high productivity.
- ▶ High temperature control precision to guarantee the stable soldering.
- ▶ Labor and cost saving. The wire stripping and soldering are integrated into one machine.
- ▶ Automatic smoke extraction, which ensure less health damage to operators.
- ▶ User-friendly, all parameters can be set on HMI for easy setup for each function.
- ▶ Customizable fixtures/jigs which ensures soldering of various products.

Specification

Model	RSE-SSM-300S
Applicable Products	USB (short body), AM, USB AF, MINI 5PIN, MICRO
Productivity	300pcs~600pcs/h
Pass Rate	99.8%
Voltage	AC 220V (Single-phase)/50Hz
Power	150W
Current (Input)	10A
Air Source	0.4~0.6Mpa
Ambient Temperature	-20℃~ +50℃
Weight	40kg
Dimension	L700mm×W420mm×H500mm
