

Tape Wrapping Machine

RSE-TW-303Q

Feature

- ▶ User-friendly. Manual wire clamping, auto tape traversing and wire rotating for tape wrapping.
- ▶ Wire twisting is prevent during tape wrapping by synchronous rotation of two wire grippers.
- ▶ Economic model. Optimized your invest in harness processing.
- ▶ Tape wrapping length and tape holder are both customized acc. to your needs.

Specification

Model	RSE-TW-303Q
Applicable Tape	PVC tape, flocking tape, acetate cloth tape, etc.
Tape Roll I.D.	Φ38mm or Φ32mm
Tape Roll O.D.	≤Φ100mm
Tape Width	≤25mm (tape holder is customizable acc. to your tape size)
Wire O.D.	3mm-10mm
Wrapping Length	Max.1000mm (Customized)
C	AC210V-AC240V (single phase)
Control Way	Touch screen, foot switch
Cooling Method	Natural air cooling
Work Temperature	0-45℃
Relative Humidity	10-90%RH (Non-condensing)
