

Full-automatic Wire Stripping and Twisting Machine

RSE-WCS-2812

Scan to watch video

Key Selling Points

Uniform compact twisted copper ends, zero loose strands, ideal for terminal crimping

Feature

- ▶ The machine adopts rubbing-bar twisting design for tighter wire twisting and broader wire compatibility.
- ▶ Fully touch-screen CNC digital adjustment; digitalized operation, simple and user-friendly.
- ▶ Unique rounded-precision appearance design, compact and exquisite for easy placement.
- ▶ Auto wire feeding & discharging, timer start, and inching adjustment switch.
- ▶ One-key correction function for wire length error.

Specification

Model	RSE-WCS-2812
Power Supply	AC220V 50/60HZ
Machine Dimension	L470mm*W780mm*H350mm
Machine Weight	60kg
Total Power	880W
Rated Power	400W
Auxiliary Functions	Automatic wire feeding & discharging, timed start, inching adjustment
Display Mode	4.3-inch color touch screen
Wire Core Cross-section	0.1-4mm ² , AWG28#-12#
Cutting Length	0.1-99999.9mm
Front Stripping Length	0.1-30mm
Rear Stripping Length	0.1-30mm
Mid-stripping Segments	16 segments (customizable)
Blade Material	Imported Tungsten Steel / High-speed Steel
Stripping Accuracy	0.01mm, driven by silent hybrid stepper motor
Hourly Production Capacity	2000-4500 pieces/hour (wire length: 50-1000mm)
Program Storage	No. 00-99; support one-key copy, one-key reading, custom number and name editing
