

## Wire Heater RSE-WH-500

### Feature

- ▶ Under low ambient temperature, the wires passing through the oven are heated over their entire surface area.
- ▶ Preheat the wires to remove moisture, soften the insulation, and facilitate subsequent wire processing.
- ▶ Even temperature control and no damage to wires, guaranteed by hot air circulation heating.

### Specification

Model	RSE-WH-500
Cable O.D.	0.5-3mm
Heating Method	Hot air convection heating
Simultaneous Heating Capacity	Max.24pcs
Function	Wire missing sensor; temperature controller
Voltage	AC220V 50/60HZ (single phase)
Power	300W (including heating element 200W)
Weight	About 50KG
Dimension	L500mm×W500mm×H1100mm
