

# High Speed Tube Cutting Machine (Type C)

## RSM-CCM-40C

## Specification

| Model                    | RSM-CCM-40C                         |
|--------------------------|-------------------------------------|
| Control System           | Sports Control System + HMI         |
| Cut Off Way              | Driven By Motor                     |
| Cutter Power             | 2.0KW Servo Motor                   |
| Feeding Motor            | 57 Step Motor                       |
| Cutter Type              | Standard 18mm utility blade         |
| Voltage                  | 220V, 50-60HZ                       |
| Power                    | 1800W                               |
| Tube O.D.                | Φ1-Φ36mm (Soft Tube)                |
| Cutting Length Tolerance | 220V 50-60HZ                        |
| Speed                    | 50-400pcs/min (Depends on the tube) |
| Weight                   | 150Kg                               |
| Dimension                | 850mm*520mm*1200mm                  |
