

Ferrule Crimping Machine

RSM-FCM-1804

Feature

- ▶ Adopt motor drive control and rotation stripping way to guarantee the high accuracy wire stripping.
- ▶ Along with the wire twisting function to prevent the strands crimped not properly.
- ▶ The force of wire clamping and ferrule crimping is adjustable, all the parameters can be set on HMI.
- ▶ Equipped ferrule missing testing function and SMC Pneumatic Components.
- ▶ Quick processing capacity shift along with feeding track and accessories.

Specification

Model	RSM-FCM-1804
Capacity	0.3mm ² -4mm ² (AWG26-AWG11)
Ferrule Length	Max. 12mm
Crimping Shape	Square, Hexagon
Jacket Stripping Length	Min. 40mm
Cycle Time	2.5mm
Productivity	1000-1300pcs/ h
Storage	100 pcs
Power	AC220V/50/60HZ 400W
Air Source	0.5-0.7Mpa
Weight	68kg
Dimension	L430mm x W505 mm x H425mm
