

Pneumatic Wire Stripping Machine

RSM-PS-2010

Up to 6mm²

Feature

- ▶ Adopt pneumatic sensor, no need to change stripping blades to process various sizes of cable. Wire processing capacity of 0.5mm²-6mm²
- ▶ Adopt unique design of stripping blade structure to guarantee the neat cutting edge, to effectively avoid the bending of wire strands.
- ▶ Cutting depth well controlled by micro adjustment. Applicable for full stripping and half stripping, suitable for the stripping process of all kinds of universal cable.

Specification

Model	RSM-PS-2010
Capacity Range	0.5mm ² -- 6mm ² , Max. 10mm ²
Stripping Length	2-50mm (Full Strip)
Productivity	1500-2000pcs/h
Air Pressure	0.4-0.75mpa
Dimension	400X370X200mm
Weight	24KG
