

Wire Seal Deoiling Machine

RSM-SDM-P9

Feature

- ▶ Higher productivity by using dual circulation deoiling method.
- ▶ Time-saving. Pneumatic oil removal to speed up volatilization of the silicone oil on wire seal.
- ▶ Cost-saving. Adopt ultra-high oil absorbing materials to avoid frequent replacement of these materials.
- ▶ More powerful with double motor drive.
- ▶ Easy-to-adjust and accurate by adopting motor speed numerical control.
- ▶ User-friendly. The roller can be mounted directly onto the KOMAX device.

Specification

Model	RSM-SDM-P9
Voltage	AC 220V/50Hz
Power	40W
Air Source	0.5-0.7MPa
Dimension	L380*W230*H290mm
Roller Size	O.D. 220*H162mm
