

Spot Taping Machine

RSM-TW-08

Feature

- ▶ The machine adopts servo motor, higher precision and faster efficiency.
- ▶ Adopt special cutting way, the knife edge never sticks.
- ▶ Nano-material soft brush to guarantee better wrapping effect.
- ▶ Quick brush jig changeover between different wire sizes.
- ▶ Flexible tape gap controlled by positioning fixtures, to facilitate positioning of wrapping.

Specification

Model	RSM-TW-08
Voltage	AC 220V (single phase)/65
Tape Width	5-20mm(Disassembly Free)
Tape Material	PVC, velvet base, and other high temperature glass fiber tape
Tape Length	22-60mm(Range can be customized)
Bundle Size	2-15mm(Range can be customized)
Power	500W
Air Source	0.4Mpa
Dimensions	L620mm*W530mm*H320mm
Weight	23KG
Cycle Time	2-2.5sec
