

Continuous Taping Machine

RSM-TW-2570C

Feature

- ▶ Suitable for fixed-point taping or short-distance continuous taping for a single hard pipe or hard wire. (No branches in taping area)
- ▶ Better stability guaranteed by functions of automatic gripping, taping and tape tail end.
- ▶ User friendly. Taping position and continuous taping length are adjustable on HMI.

Specification

Model	RSM-TW-2570C
Application	Fixed-point or short-distance continuous taping for a single hard pipe or hard wire. (No branches in taping area)
Tape Material	PVC, masking tape, cloth tape
Tape Width	≤ 25mm (Customizable)
Tape Roll O.D.	≤ 100mm
Harness Length	≥ 200mm
Harness O.D.	8-28mm
Continuous Taping Length	≤ 70mm
Length From Wire End	Min. 30mm (gap between wire end and tape edge)
Control Way	MCU
Taping Position Accuracy	±2
Overlapping Accuracy	±1.5
Cycle Time	5sec per taping spot (depends on taping method)
Air Source	0.4-0.6Mpa
Power	400W
Voltage	AC220V 50HZ (single phase)
Ambient Temperature	0-40℃
Weight	90KG
Dimension	L600mm×W700mm×H620mm
