

Multi-station Simultaneous Spot Taping Machine

RSM-TW-5S/6S/7S/8S

Feature

- ▶ Improved efficiency. Multiple taping units allow multi-point tape wrapping of cable at the same time.
- ▶ Highly flexible. The taping units can move freely to facilitate different taping position requirements.
- ▶ Labor-saving. Tapes of different sizes as much as 8 types can be wrapped simultaneously.
- ▶ The end of the wire/cable can be automatically tightened (tightening force adjustable), which can help accurate positioning of taping.
- ▶ User-friendly. Wrapping numbers is adjustable on HMI.
- ▶ Superior security. Safety light curtain to prevent injuries.

Specification

Model	RSM-TW-5S/6S/7S/8S
Station Number	2-8 stations (Customizable)
Cable Length	≤ 2 meters
Tape Width	9-20mm
Taping Spacing	≥15mm
Taping Layer(s)	No limits
Cycle Time	1.5s
