

Spot Taping Machine

RSM-TW-DC01

Feature

- ▶ The machine adopts pure electric design, compact and practical
- ▶ Adopt special cutting way, the blade never stick
- ▶ Nanomaterial soft brush is used in the binding mechanism for better binding effect
- ▶ The left side is equipped with marking ruler to facilitate positioning of winding
- ▶ There is no need to change accessories for different widths of tape
- ▶ The new tape installation mechanism, different inner ring tape can be used
- ▶ Optional tape receiving mechanism
- ▶ The length of the tape head is adjustable

Specification

Model	RSM-TW-DC01
Voltage	AC 220V
Tape width	5-20mm(No need to change)
Tape material	PVC, duct tape,flannel tape and other kinds of high temperature glass fiber tape
Length of the Tape	22-60mm (Range can be customized)
Capability range	O.D.2-7mm(Range can be customized)
Dimensions	L400*W350*H350mm
