

Pulling Type Continue Taping Machine

RSM-TW-LS05

Feature

- ▶ Independently researched and developed with intellectual property patent, only need to feed into wire harness into the taping port, it can automatically tape according to length and space which has been set, especially for long and continuous
- ▶ taping, the speed is at least 5 times higher than manual taping.
- ▶ Optional cutting cable model:only through gripper to feed into taping wire;long wire model:only through gripper and wheel to feed into taping and the length is unlimited.Branch model:each sections can be programmed to taping ,branched by manual.
- ▶ Safety and stable,no need touch the blade
- ▶ The winding tape effect is better, and there is no deviation according to the average taping stroke and wire harness

Specification

Model	RSM-TW-LS05
Voltage	AC 220V/50HZ
Fabric Width	9-19mm(Light Panel LED Bar)
Fabric Material	PVC, cloth base, felt, fine grain, etc
Fabric length	Indefinite Length
Rated Power	500W
Weight	36KG
Dimension	L520mm * W500mm * H360mm
