

High Speed Wire Cutting & Stripping Machine

RSM-WCS-40G

Feature

- ▶ Five wires can be processed simultaneously, which is faster and can save time
- ▶ Supported automatically high-speed wire cutting, single or both ends stripping suitable for large wire processing companies
- ▶ 99 storage information can be used randomly, which makes your processing program easier to reduce wire waste
- ▶ Adopt 5 inch HMI which is visualized and easy operation
- ▶ Adopt logic error correction, emergency functions, and other strong security protection series to ensure safety
- ▶ Adopt self-compensation function, which can greatly reduce the length error.
- ▶ Applicable wire: #14AWG-#28AWG only need to change the catheter different wire can be processed

Specification

Model	RSM-WCS-40G
Productivity	300pcs/min , L=100mm
Weight	40Kg
Voltage	AC 220V, Single Phase
Cutting Length	45-9999mm
Cutting Tolerance	$\leq \pm (0.2+0.002*L)$ (L= Cutting Length)
Stripping Length	1-30mm
Stripping Capacity	AWG#14—26 (2-0.2mm ²)
Dimension	L430*W450*H300mm
