

Small Fixed-type Cable Tie Strapping Machine

RSM-WT-07

Feature

- ▶ Integrated machine body structure; wear-resistant engineering plastic fixture.
- ▶ Fully automatic operation, completes threading, tensioning and fixed-length cutting in one cycle.
- ▶ Compatible with batch bundling of various wire harnesses with strong versatility.
- ▶ Benchtop compact design, small footprint, easy for station installation on production lines.

Specification

Model	RSM-WT-07
Cable Tie Width	2.5-7.2mm
Cable Tie Thickness	1.2-1.6mm
Application	Electronics factory harness processing, home appliance wiring, new energy cables, automotive pipeline bundling
Min. Bundle Size	Customized acc. to cable tie size
Max. Bundle Size	Customized acc. to cable tie size
Residual Length	1.5-2mm
Cycle Time	5S
Voltage	DC12V/AC220V
Air Source	No air source needed
Weight	0.8kg
Power	24W
Pull Force	20-60(adjustable)
Dimension	L46mm×W58mm×H100mm
