

Semi-automatic Clip Strapping Machine

RSM-WT-2024

Feature

- ▶ Quickly and accurately strap the clip, which greatly improves the efficiency compared with the traditional manual strapping method.
- ▶ Cost-saving. Automatic clip strapping, straining, tail cutting and waste collecting, which only takes about 1.5 seconds per cycle.
- ▶ High flexibility. With the fixture, the clip can be flexibly positioned on the wire harness to assist clip strapping.
- ▶ Easy operation. PLC control and user-friendly interface for user to quickly learn and use.
- ▶ The neat and consistent strapping improves the appearance of wiring harness, which improve the product's market competitiveness.

Specification

Model	RSM-WT-2024
Strapping O.D. (Min.)	Ø1mm
Strapping O.D. (Max.)	Ø33mm
Cycle Time	1.5 sec
Voltage	AC220V (single phase)
Weight	22kg
Dimension	L550mm*W350mm*H150mm
