

Wire Stripping, Twisting & Tinning Machine

RSM-WTT-068

Feature

- ▶ Labor saving. Stripping, twisting and tinning can be completed in one machine.
- ▶ Higher productivity with simultaneous processing of multiple wires.
- ▶ Fail-safe. Unique tinning structure ensures that the core will not stick together while tinning.
- ▶ Special design to make the machine free of tin oxide slag and smoke, which ensure less health damage to operators.

Specification

Model	RSM-WTT-068
Wire Range	0.8~3.0 mm ²
Jacket Stripping Length	Min. 20mm
Twisted Length of Wire Core	Max. 15mm
Productivity	500 pcs/h
Voltage	AC 220V(single phase)/50/60HZ
Power	700W
Air Source	0.5Mpa
Weight	95kg
Dimension	L650mmxW850mmxH1250mm
