

Auto Tape Dispenser

ZCUT-870

Feature

- ▶ Compact design with excellent performance, light and easy to reach.
- ▶ Large disk design. One machine can be used by many people, which is time-saving and efficient.
- ▶ Smooth processing rhythm. Infrared sensor added in the turntable to feed new cut tape after operator remove the tape.
- ▶ Suitable for cutting extremely narrow tape, 3mm at the narrowest.
- ▶ No-roller design, no restrictions on I.D. or O.D. of tape roll, which can work for tape with different size.
- ▶ Rapid adjustment. Cutting length and tape spacing can be freely adjusted by knob according to actual needs.
- ▶ Safety cover to prevent accidental injuries caused by sharp blades during operation.

Specification

Model	ZCUT-870
Voltage	AC220V/50HZ AC110V-60HZ
Cutting Length	6mm-70mm
Tape Width	3-25mm
Cutting Length Range	15 ~ 70mm
Tape Width Range	3 ~ <25mm
I.D.Of Tape Roll	Unlimited
Max. O.D. Of Tape Roll	Unlimited
Max. O.D.	150mm
Cutting Length Error	±0.5mm
Tape Range	Ordinary tape, transparent tape, Goldfinger tape, acetic acid tape, Mylar tape
Power	220-240V 120V 110V
Mode Setting	Manual/automatic
Material	Special ABS Resin
Feeding Speed	200MM/sec.(Use process tape)
Environment	-5℃~40℃ Moisture: < 80%RH
Weight	2.12kg
Dimension	258mmX126mmX150mm
Other Feature	Imported mobile sensor for cutting
